

2nd International Health Services Congress

Aim and Scope

The aim of the 2nd International Health Services Congress 2025 is to bring together researchers from Turkey and around the world who conduct research in the fields of Medicine (Basic Medical Sciences), Nursing, Dentistry, Midwifery, Multidisciplinary Health Sciences (Physiopathology, Physiotherapy and Rehabilitation, Child Development), Health-related Multidisciplinary Sciences (Health Physics, Health Management), and other health-related sciences, in order to ensure the visibility of original and new studies, facilitate researchers' sharing of their work, and contribute to the development of science through this process. The language of the 2nd International Health Services Congress 2025 is Turkish/English. Summary or full-text studies can be submitted to the congress. Oral presentations to be given at the congress will be scanned through an anti-plagiarism program and subject to the peer-review process. Upon passing the peer-review process, they will be published as an e-book with an ISBN number in an electronic format. Your participation with your valuable studies in the 2nd International Health Services Congress 2025 will be an honor for us.

Best regards

Congress Organizing Committee
